

ACT2016SMX-4

The **ACT2016SMX-4** is an extremely compact, high quality, low aging, seam welded crystal. Utilising a ceramic base with a metal lid, it provides for the durability and reliability, necessary for strenuous processes like infrared and vapour reflow. The lid is grounded through the package, to assist with EMC Issues, and the pads are gold plated. The device is very suitable for automatic placement on PCB's. With an excellent range of frequencies and stabilities it is an optimum choice for designs where PCB space is at a premium. **Applications** include: PDA, Cellular, MPU Clocks, ISM, Bluetooth, Wlan, and consumer electronics. Available loose or on reels (Standard 3,000 pieces / reel.).

Compatible with Eu Directive
2002/EC - RoHS

SERIES : ACT2016SMX-4 Part numbering code is CX

NOTES :

- 1) Tighter Tolerances and Stabilities and other Operating Temperature Ranges may be available.
 As each of these specification parameters impact on each other, it is not always possible to combine all options in one device. Therefore, if a specification not catered for above is required, please contact us directly for the relevant part number code(s).
- 2) ACT are always happy to consider truly custom specification parts which may require non-standard specification parameters, specific testing, customer requested AQL requirements, non standard packaging or taping and reeling and custom marking. Such devices would normally be allocated a custom specification part number which is wholly customer specific.
 (EG : A 24.00MHz custom ACT2016MX-4 device may have a part number such as CX2400C- C1133-PF)
- 3) A guide to availability of tighter stabilities appears in Table 2 of the data sheet
